SFS Module 200sccm EvalKit

Thermal mass flow module with linearized digital / analog output

Fast and compact flow module, suitable for gas dosing systems, manifolds and analysers; Practical Evaluation Kit with fluidic block adapter for direct tube atachment, M5-4 connectors for 4mm tubing included (exchangable)

Product Name: SFS01-M-00200
□□□□□ **:** +/-200 sccm (ml/min)
□□□□ **:** Gas Flow
□□□□□ **:** 0 to 80 °C
□□□□ **:** Aluminum, FR4
□□□□ **:** M5-4mm tube adapter or Ø 2.2 mm i.D. flat gasket (w/o fluidic block)
□□□□□ **:** 2.2 mm
Wetted materials: Aluminum, gold, FR4, silicon, silicon nitride, epoxy, nitrile, brass
□□□□ **:** PCB connector JST SM08B-SRSS-TB
□□□□ **T63:** 20 ms
□□□□ **:** 5V DC +/-5%
□□□□ **:** I2C or 0 to 1 V

□□ **:** 2% f.s. (digital output)

□□□ **:** 0.2 % f.s.
