## CONFORMITY DECLARATION "CHINA ROHS (GB/T 26572-2011)"

"China RoHS" applies to electronic and electric products and components. Like the European RoHS, it deals with the substance's Lead, Mercury, Cadmium, Hexavalent chromium, PBB (polybrominated biphenyls), PBDE (polybrominated diphenyl ethers), DEHP (Di(2-ethylhexyl) phthalate), BBP (Di(2-ethylhexyl) phthalate), DBP (dibutyl phthalate) and DIBP (dibutyl phthalate).

However, instead of banning these substances, the "China RoHS" requires the indication of the environmentally friendly use period and the provision of a substance declaration.

Hereby it declares and certifies that our products are compliant to China RoHS II Directive (GB/T 26572) by the commission on the restriction of the use of certain hazardous substances in electrical and electronic equipment.

Innovative Sensor Technology IST AG is committed to compliance with all relevant laws and regulations, including the "China RoHS". IST AG hereby declares that all our products are produced in compliance with RoHS.

Dr. Alena Polakova,  
CSR & Product Compliance Manager

Thomas Bürgler,  
Director Operations
