

Environmental Policy of IST AG

Responsibility for the environment and safety is a daily part of every business activity and part of the behavioral culture for all IST AG employees. In particular, we pay careful attention to the environment and the safety of all who deal with us.

We commit ourselves to consider the interests of environmental protection in the development of our products.

Our products are designed to be produced and recycled with minimal environmental impact.

We operate our sites under optimal energy efficiency and take advantage of energy reduction technology to reduce consumption and waste related emissions.

Every year new environmental goals are set and evaluated.

We promote the environmental awareness of employees through information and training.

We conduct our business in respect to all relevant laws, regulations and industry standards.

We maintain an open dialogue with relevant authorities and the public.

We are committed to the continuous improvement of environmental services, reviewing our environmental management system on a regular basis, establishing measures and their review, and reporting on the results.
