SFS Module 200sccm EvalKit

Thermal mass flow module with linearized digital / analog output

Fast and compact flow module, suitable for gas dosing systems, manifolds and analysers; Practical Evaluation Kit with fluidic block adapter for direct tube atachment, M5-4 connectors for 4mm tubing included (exchangable)

Product Name: SFS01-M-00200

工作流量范围 **:** +/-200 sccm (ml/min)

被测介质 **:** Gas Flow

工作温度范围 **:** 0 to 80 °C

外壳材质 **:** Aluminum, FR4

流体连接 **:** M5-4mm tube adapter or Ø 2.2 mm i.D. flat gasket (w/o fluidic block)

流道内尺寸 **:** 2.2 mm

Wetted materials: Aluminum, gold, FR4, silicon, silicon nitride, epoxy, nitrile, brass

连接类型 **:** PCB connector JST SM08B-SRSS-TB

响应时间 **T63:** 20 ms

电源电压 **:** 5V DC +/-5%

输出信号 **:** I2C or 0 to 1 V

□□ **:** 2% f.s. (digital output)

□□□ **:** 0.2 % f.s.

Product code: 156603
